

AMBRA 2024

II International Conference on Advanced Materials for Bio-Related Applications

19-23 May 2024
Wroclaw, Poland

At the AMBRA 2024 conference, we connect professionals in biomaterials, nanotechnology, tissue engineering, orthopaedics, cardiac and maxillofacial surgeries, microbiology, pharmacy, veterinary medicine, agriculture, and beyond.

Our primary focus lies in exploring issues related to biomaterials and nanomaterials, particularly their applications in biological, medical, and agricultural contexts.
